Our Mission Statement:

"To improve the health and wellbeing of our patient population we are committed to provide a high quality standard of care within a safe environment".

Aims and Objectives:

Practice Beliefs

- To provide a high standard of healthcare
- To provide the best possible quality service for our patients within a confidential and safe environment
- To ensure that all our staff are fully trained and able to carry out their duties in a competent manner and within a safe working environment
- To treat all patients and staff with dignity, respect and equality

Practice Values

- To maintain high quality of care through continuous learning and training
- To involve our patients in decisions regarding their treatment
- To encourage our patients to get involved in the practice and to feedback on the care they receive
- To involve allied healthcare professionals in the care of our patients, where it is in patients' best interests

Goals

Care: To provide a high quality standard of care to our patients within a safe environment

The Practice aims to provide stability in its workforce and to seek continuous improvements in the clinical care and services that we provide and build a platform for innovation.

Innovation: To be an innovative and sustainable organisation

The Practice aims to continuously improve efficiency, performance and profitability to help meet the needs of the patients. We aim to explore new models of working such as Digital Healthcare.

Leadership: To build on professional knowledge, skills and effective working practices.

The Practice aims to promote teaching and training and help support members of the team to develop their skills and knowledge. We aspire to become a Beacon Practice to sustain general practice in the local area through engaging with neighbouring practices.

Our Services

The GMS Services provided by our GPs and clinical staff are defined under the General Medical Services Contract. These services are mainly split into three groups of;

- Essential
- Additional
- Enhanced services.

We provide essential services for people who have health conditions from which they are expected to recover, chronic disease management and general management of terminally ill patients.

Our core services include:

- GP consultations
- Telephone consultations
- Home Visits
- Phlebotomy service
- Chronic Disease management

Our additional services include:

- Cervical cytology screening
- Contraceptive services
- Child health surveillance
- Maternity services
- Vaccinations and immunisations
- Medication Reviews
- Learning Disability assessments

Enhanced services

Our enhanced services include:

- Childhood vaccinations and immunisations
- Postnatal checks
- Prostate Cancer Injection Therapy
- Flu/Pneumococcal immunisations

Other services

Our Practice also offers services including:

- Child Health and Development
- Wound management
- New patient/General health checks
